4:00 PM

Graduation
Address

• COHORT 2020 GRADUATION ADDRESS

- Graduation
- Keynote:

Angela Barranco
Undersecretary,
California Natural Resources Agency (CNRA)

4:30 PM

RAID
(RIC)

• RAID–RAPID INNOVATION CYCLES—Day of Innovation Attendees will join us.

- Led by... 
E N G A G E...where impossible & ideas become reality—that's innovation!

• What's a "RAID-RIC"...?

Radical–

This is transformative breakthrough, a new direction; it is so appealing that it can create new markets and revamps how things were ever done before.

Architectural–

Significant improvement of an existing way or process; helps to sustain a position so it improves and moves forward, not stand still or regress.

Incremental–

Gradual, continuous improvements on products, services, processes so it always improves; may not be as quick as other approaches, but definitely forward.

Disruptive–

A cousin to Radical, this is a powerful change that disrupts the current market; often a major leap forward in a given industry, but not as explosive as a Radical innovation.

"You'll be amazed with what we co-create!"
